

BEVERAGE PACKAGING EQUIPMENT

Beverage Packaging Equipment

Arwadh provides fully integrated, turnkey solutions for bottled water and other beverage packaging facilities designed to fit your bottling needs, your factory space and your budget. Arwadh brings over a century of combined expertise in equipment innovation, project management, installation and customer training. When your plant is installed, commissioned and meets contractual output and our high standards, we will hand you the key.

Customers have the tremendous advantage of Arwadh's Saudi based on-site services division. Service personnel and spare parts can reach virtually any Middle East location within a day.

At Arwadh our reputation is built on the success of our clientele. Our mission is Working Together to achieve your business goals by maximizing efficiency and increasing value, leading to your overall satisfaction. From concept to operation, build your success story with Arwadh.
